BOOK SYNOPSIS

A diagnosis of terminal cancer crushes fighter pilot Jake Bronsons dream of a long career in the United States Air Force. But a medical accident gives him an astonishing gift by inexplicably launching his brain into overdrive, making him a human supercomputer with extraordinary cognitive powers. And while the wondrous new abilities are cold comfort to a man about to die young, an ocean away theyre the answer to the unholy prayers of arch-terrorist Luciano Battista. Hes planning the ultimate jihadist attack and creating an army of mind-enhanced super agents to carry it out. All he needs to make his monstrous crusade a reality are the secrets of a genuine super brain. Using a beautiful woman as bait and innocent children for blackmail, Battista will lure Jake toward a fate far worse than an early death -- by making him the ultimate weapon in the slaughter of millions.
